

Highlights from Insurance Markets Unlimited

June - 2011

Lawn Care and Landscape Gardening

Insurance Markets Unlimited and Insurors Indemnity have had great experience with two "target" classes:

- Lawn Care
- Landscape Gardening

Accounts that install sprinkler systems can also be considered. Coverage is offered as a package or mono-line general liability policy.

Insurors Indemnity also offers a very affordable Business Service Bond for these clients.

Please allow IMU and Insurors Indemnity to compete for your preferred Lawn Care and Landscape Gardening clients.

Contact Kathy Kostelnik @ 866-579-9971 if you have any questions.

Flood Insurance Coverage

Newly mapped flood areas in Texas have caused some property owners to purchase flood insurance for the first time.

Insurance Markets Unlimited can help place coverage on risks that may qualify for a preferred risk "extension" rate for 2 years, if the flood map was changed after October 2008. The extension is twofold:

1. It provides affected owners time to save and prepare for paying for the full risk premium in 2 years
2. It allows time for the communities to upgrade structures to meet FEMA standards.
